 - Query a list of all databases

Query a list of all database names in the instance

Authorization

To call this method, you must be assigned one or more IAM access roles that include the following action. You can check your access by going to [Users > User > Access](#).

- `cloudantnoeq:db.account-all-dbs.read`

Auditing

Calling this method generates the following auditing event.

- `cloudantnoeq:db.account-all-dbs.read`

Request

```
get_all_dbs(self,
    *,
    descending: bool = None,
    end_key: str = None,
    limit: int = None,
    skip: int = None,
    start_key: str = None,
    **kwargs
) -> DetailedResponse
```
